MILWAUKER & HORICON R. Ample and timely provision was made for that purpose, and their agent in New York, the Cashier of the all the coupons presented. We are at a loss to account for the prevalence of the false report.

Mr. Barstow's Message.
The Message communicated by Wm. A. Bir stow to the two Houses of the Legislature, on Friday last, was laid before our readers in the Sentinel of Saturday morning, with such brief comment as our limited space allowed. We characterized it then as the production of a bitter, narrow minded, and unscrupulous partizan, and every unprejudiced man who reads it will, we are lives. satisfied, concur in this opinion. We cannot now | As to the first, yea have already learned that recall an executive message in any state in our Mr. Baker, the Republican candidate, was chosen Union, so lacking in dignity, so low in tone, and on the first ballot, drawing the whole vote. The so contemptible in spirit, as this last effort of Mr. rest of the votes, all democratic, were east for Barstow's. It is, in the main, a recital of his W. H. Gleason and O. T. Soper. The former is griefs, and a summary of complaints against the | well known about the Capital as a Democrat—the hast Legislature, with frequent, insulting and un- latter is, as I am assured, on the very bestauthorcalled for signs upon these of his fellow citizens ity, a Know Nothing. We shall refer briefly to the leading topics, in illustration of

these points.

The Message sets out with felicitations, bunglingly expressed, upon the progress of our State | ed, more than any other, to take to heart what in wealth, population and general prosperity, and he shought as indignity upon the Lieut. Goverupon the bright prospect which the future holds nor, but that officer looked very good humored out. Mr. Bassrow can see no other cloud on about the matter, and his feelings refused to be the horizon than the possibility that "the sound | harrowed up, or his bair to stand erect. Doubtprinciples" of which he is the self-constituted less, thorough partizan as he is, he would have embodiment, may be overthrown by "fanaticism, felt it to be his duty to give his party friends the "aided as it has been by unscrupulous partizans lead upon the important committees, and who "and secret political organizations." The Legis- would blame him? Surely, not his political lature is reminded that his recommondations of friends; and his political opponents, having the a short Session have heretefore been but little | majority, and being, before the people, responsiregarded, and he seems to expect no better treat. | ble for the great part of the action of the Senate ment now. The financial condition of the State | have wisely chosen to keep in their hands all occupies the next paragraphs. As set forth in the power that they have, and not, through a rithe Message, this looks very well. There is a diculous exercise of "courtesy," throw away reported balance in the Treasury, on account of what brile advantage remains to them. 1st of January next, is set down at \$138,482. It is impossible to resist the conviction, however that these figures are deceptive.

Recurring to the preceding message of Mr. Barsiow we find the estimated expenses for 1855 stated at \$253,059, and the estimated revenue at \$238,829, showing an apparent surplus of revenue over expenditures of \$35,770. Such was the Executive statement of affairs in Junuary | tax upon themselves. 1855, and yet in March following the . Finance Commistee of the Senate, consisting of Messrs. HARVEY, ELDREDGE and KELSEY, two of the three Bansrow men, reported to that body, that from information derived from the State Treasurer, Mr. Janssen, they were satisfied that instead of a surplus of \$35,770, as the Governor ciphered it. there was an actual deficit of one hundred and seventy-six thousand six hundred and fifty-fige dollars, which, with the expenses for 1856, must be provided for by tax. To this report no reply peacefully with such a state of things is althorwas attempted. The truth of the statement appears to have been admitted, on all sides, and the Senate unanimously adopted the recommendation with which it closed. Is there any reason to suppose that Mr. Barsrow's figures are at all more reliable this year than they were the

The suspicion that the financial statement thus put forth is, witfully or otherwise, grossly inaccurate, is strengthened by the use which Mr. BARSTOW makes of it. After speaking of the estimated surplus on the 1st of January next, the

message proceeds thus: For what purpose a State Tax of over \$250, 000 000 was levied by the last Legislature, I have never been able to understand, unless it was with a view to create partizon clamor for political ends, which, to all conversant with the his tory of politics in this State during the past year nust seem, at least, quite probable.

We do not besitate to brand this paragraph as an unexcusable mistatement which is unworthy of a man, and most disgraceful in a public office It is hardly necessary to remind our readers that the Democrats had the control, last year, of two out of three of the branches of the law-making power, to-wit, the Governor and Senate. The State Tax bill required the assent of these, as well as of the Assembly. Did the Governor and Senate, then, pass that bill " with a view to create partizan clomor for political ends? Let the Democratic Governor and Senate answer!

But let us look a little at the history of this tax bill. It originated in the Democratic Senate, and was introduced by a committee consisting of Messrs. Harvey, Eldridge and Kelsey, two Democrats and one Republican. It was accompanied by a report to which we have already referred, and which closed thus:

"Your committee, therefore, cannot see he the present Legislature can show reasonable atthe present compliance with the requirements of section 5, article 8, of the Constitution, (which directs that all desciencies of any one year, and the estimated expenses of the next ensuing year, shall be provided for by a sufficient annual (ux.) short of providing for the levying and collecting of a state tax for the year 1850, of three hundred and fifty thousand dollars; and your committe ingly submit a bill providing for such tax. · C. A. Elbridge,

L. P. HARVEY, E. B. KELSEY. The Senate unanimously passed this bill. In the Assembly, on the recommendation of the

Finance Committee, the amount was increased to \$375,000. But the Senate rejecting the amendment, the billiwent through, as first prepared without opposition, and was signed and approved by Wu. A. Barstow. And yet, with all these facts in his knowledge, Mr. BARSTOW impeaches himself and the late Legislature, before the People of this State, for levying an unnecessary tax, and protests that he does not know why it was done, unless " to create partizan clamor for political ends." Does not the record prove that in this matter, he has stooped to a de-

ib crate and mean untruth? From this subject the Message passes to the School and University Fund. The principal of is no change.

A CARD. The undersigned desires to express his most grateful no knowledgments to the people of Wauwatosa, who, early of the bitter cold morning of last Tuesday, in his absence made such noble exertions to save what they could from the flames that destroyed his dwelling, and a large part of its contents Particularly is he indebted, for the rescue of most of his library, to the energy of two or three, and the during of one, whose exposure for his sake, he shall ever remember. For the Sentinel. The Landtord's Reply.

Ms. Euron:—I claim the privilege of a reply to the charge against me, in your issue of Thursday last, of turn

from my house William Alben, of New York, o the day previous. This charge is untrue, no matter whence it came. I did not turn him out then, nor any other time Previous to that, for several days, he had been imposin ing to be at my house, I enquired of him, in presence of Alben, if he would accept Alben's order for the amounte, (Alben) was owing me, when the Dr. Indignantly d ne, (Appen) was owing me, who the Dr. integrantly re-nied owing Alben any him, in presence of five or six per-sons, and emphasically denounced him as a "blackgoard, a loafer, and a lying secundrel." Alben then did not claim that Dr. Howe owed him anything; and when I immedi-ately inquired of him how he intended to pay me, he replied saucily, that he would pay me when he got ready. Supposing then that Alben had the money, and that he was all that Dr. Howe had represented him, I turned to go to a different part of the house, and on passing, stooped for and threw a pair of his boots behind the bar, without saying a word, or "furning him out," and when I returned, he had left.

As to what transpired when the officer came, it is or have been mistaken) to have placed implicit confiden in Alben's story, and unprepared to believe my version of the matter; otherwise, the result, of his mission would

House.—Mr. Campbell, of Ohio, moved that the 10 minute resolution be suspended till Wed-nesday, in order to give candidates for Speakerchip an opportunity to define their positions.

A debate ensued, in which several members expressed opposition to making the House a debating society, and opening the boundles-set of

Mr. Humphrey Marshall suggested that the batch of interrogatories be filed, the candidates to reply in printed publications at their convenience. [Laughter.]

It was finally decided thet all the candidates should answer Mr. Zolicoffer's queries before others were propounded. Mr. Banks was called out and members drew up their chairs mound him.

Mr. Banks said he did not feel that he was obliged to answer questions. He had not solicited support; his friends, as Othello said of his wife, had eyes and chose me. He distinctly remarked he did not regard the Kansas bill as promotive of the New York, Jan. 12.

New York, Jan. 11.

An arrival from Bermuda brings advices to the 25th, from which we learn that the U. S. aloop of war Cyane, had been to Antigna to inquire into the taking of colored seaman from an American vessel, under pretence that he was a slave. The British aloop of war was in port at the time, and the report says that, on entering the harbor, the Gyane took a very menseing position in regard to her, and refused to salute the English flag until tegratation was made for the insult offered to our Government. Interviews were had between the commanders of the two vessels—with what result it is not stated, but it is said the question did not regard the Kansss bill as promotive of the formation of slave or free Sintes. He believed in the constitutions billy of the Wilmor Provise, and did not believe that the constitution carries slavery into the Territories. He recognized the right to protect property for North and South alike, but not property in man. He believed the Constitution to be an instrument of freedom, and that Congress was wrong in repealing the Missouri Compromise. Applause from the Republicans. There were now cries for Mr. Fuller. Mr. Fuller said that he was teady at any time to retire from this protracted contest, he did not regard the Kansas bill as promotive of the formation of the form esult it is not stated, but it is said the question has been referred to higher courts. to interdict slavery in the Tenitories.

Mr. Puller answered that he was not in favor of restoring the Missouri Compromise. He was opposed to the abolition of slavery in the District of Columbia. Did not believe in equality of the black and white races. He thought with Washington that the best policy for the Government was to appoint native born citizens to office in preference to those of foreign birth. To proscibe no man for his religion, but to accord to all the largest liberty of opinion. He did not desire to exclude toreigners contige here, and would the largest fiberty of opinion. He did not desire to exclude foreigners consing here, and would invite them to settle the public territory and build up for themselves homes, but in all matters pertaining to Legislation and Administration, Americans should govern America. [Applause from the Americans.
